

DrumBrute Goes Afro-Cuban

Read Me

Here are the instructions to use the "DrumBrute Goes Afro-Cuban" pattern pack for Arturia DrumBrute.

1 CONTENT OF THE ARCHIVE

- Readme [.pdf]: current text file.
- DrumBrute_Goes_Afro-Cuban [.drumbrute]: DrumBrute pattern file to transfer with the Arturia MIDI Control Center
- Preset [.jpg]: A preset sheet fitting with the patterns.

2 HOW TO USE

2.1 Importing the "DrumBrute Goes Afro-Cuban" patterns in your DrumBrute

- MIDI Control Center installation:
 - Download the Arturia MIDI Control Center from this page: <https://www.arturia.com/products/drumbrute/resources>
 - Launch the file and follow the different steps to get it installed on your computer
 - Launch the MIDI Control Center
- Transferring the presets:
 - In the product list (top-left corner) select the MatrixBrute
 - Connect your DrumBrute to your computer
 - In the bottom-left part, click on the "Import" button.
 - Select the file DrumBrute_Goes_Afro-Cuban.drumbrute. This will create a new project named "DrumBrute_Goes_Afro-Cuban" in the bottom left list representing the projects saved on your computer.
 - Clicking on the "+" aside the project name will let you unfold its content
 - You can then transfer this project in the DrumBrute memory, represented by the upper list, by simple drag-and-drops of an individual pattern, a bank or the whole project.

⚠ Pay attention not to overwrite contents that you would like to keep ⚠
